NEW DELHI 3, (INDIA) ; }  
9th January, 1950.

S. P. JAIN,  
for Registrar General, India.

NATIONAL

SAVINGS

CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Registrars or the National Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

Births and deaths from principal diseases in towns with a population of over 30,000 in the Provinces of India and some of the Indian States for the week ending the 10th December, 1949.

REMARKS

The figures of births and deaths shown in this statement for the week ending the 10th December, 1949 relate to 188 towns with an estimated population of 23,912 thousands. The total number of towns is 224 and their population is 27,309 thousands. Thus 84% of the total number of towns representing 88% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,353 and 8,944 representing birth and death rates of 35.6 and 19.4 per thousand of population respectively.

(A) *Indian Provinces.*—The data here relate to 162 towns with an estimated population of 21,011 thousands. Information for Bihar and Assam could not be included. The total number of towns is 192 and their population is 23,759 thousands. Thus 84% of the total number of towns representing 88% of the total population is covered. The numbers of births

and deaths recorded in these towns were 14,478 and 8,085 representing birth and death rates of 35.8 and 20.0 per thousand of population respectively. The table at the end gives the position by provinces.

No town recorded a high death rate of 50 or over per thousand of population.

(B) *Unions and States.*—The data here relate to 26 towns with an estimated population of 2,901 thousands. The total number of towns is 32 and their population is 3,550 thousands. Thus 81% of the total number of towns representing 82% of the total population is covered. The numbers of births and deaths were 1,875 and 859 representing birth and death rates of 33.6 and 15.4 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
